Very good solution, keeping out the insects while letting the fresh air in. The net is also easy to clean and does not affect visibility when looking out. Overall job well done.

Installation was fast and workmanship was great! Now I can leave the windows open 24/7! Thanks Home Guard Ventures team for the mosquito netting solution!

Was skeptical at first as I was afraid that the house would be stuffy after installing the net. After installation, I can still feel the wind and it feels as though the net is not there.
